

# Torche Led

## TECPRO FILLINI

### Features

More light - the regular Fillini already puts out more light than comparable competitors. The new Fillini Click looks very similar but provides 50 % more light.

### Power (DC 5.8-16.8V)

- ⊕ Can be powered from 5 x AA Batteries (battery compartment)
- ⊕ Optional battery shoe hooked onto the back of the Fillini Click in versions for Sony DV battery NP-F
- ⊕ Optional power from the DC output of professional video cameras or Anton Bauer Gold Mount plates (PAG or Swit versions also available)

### Light Distribution

High efficiency reflector serves for even light distribution.

### Color

Daylight as good and as stable as the best selected white LEDs can provide with today's state of the art. Tungsten color (approx. 3200 Kelvin), unbreakable filters attaches with magnets.

### Technical Specifications

- ⊕ 450 Lux at 1 m (3 ft) distance, 40° angle
- ⊕ Dimmable in a range of 0% - 100%
- ⊕ Daylight, 5600°K, convertible to 3200°K by magnetic attachable filter
- ⊕ Voltage Range: 5.8 - 16.8 V DC
- ⊕ Power Consumption: 9 W
- ⊕ Size: 5 x 3.1 x 2.1" (12.8 x 7.8 x 5.4 cm)
- ⊕ Weight: 8 oz (231 g)
